Fred L. Austin & Son, Cincinnati have opened a large department store at Toledo.

The Rev. G. W. Young, Pastor of the Methodist Church of Richmond, has been tendered the position of Field Secretary by the Kentucky Local Option Committee, and has accepted, pending the action of the Bishop at the Flemington Conference.

To have our best lines in all our departments come in the middle of August. In a few days many of our young friends will resume their studies —some at home, others in foreign educational institutes. It has always been our pride to send the boys well dressed. No matter what town or city they go to Hechingen's clothe wearers are the proper dressed youngsters. For this fall we have greater choice than ever, especially improved and composed. With you, with the nobliest clothing that fashion subscribes. Our full Suits and Overcoats are the highest types of merchant tailoring art. Our stock represents the production of the acknowledged leading houses in the country. Our line of Shirts, Underwear, Hats, Ties, etc., is simply great. If the young miss needs a nice trunk we can supply you.

SHOES.

The results in our Shoe Department, though not a year old, are gratifying to us and fully as much to our shoe patrons. "The most comfortable pair of shoes I've worn for years," is the universal expression of those that wear them. Our \$2.50 and \$3. Smith & Stoughton French Calm Common Sense Shoes are the best. Our new line of ladies' shoes is the same as last year, made for us and warranted to give satisfaction. Money refunded if they don't. Our high-class Shoes, such as Vici Kid, Russian Sheep, Patent Leather, Cordova, &c., all of which are specially made for us by the Burt-Packard people, Brockton, Mass., fill the long felt wants in Maysville's shoe trade. We are daily receiving our fall stock in these lines. If your summer shoes are about worn out and you think it late to buy lightweight footwear, we can fit you in the coming style of Fall Shoes. Respectfully,

HECHINGER & CO

CLOTHING AND SHOES.

SHREWD WOMEN!

Women with an eye to the main chance—sharp, keen, acutus sagacious women—will be interested in some muslins and cambrics. We've crowded out every farthing of cost that didn't take quality with it, and here's the result:

CAMBRIC AT 5c. A YARD.

High bleach, 36 inches wide. Big contract made when mills were doing little. Keeps today's 7½¢ value at 5c. in this store.

UNBLEACHED MUSLIN AT 5c. A YARD.

Fine smoothly twisted yarns in a generous weight, 36 inches wide—a quality that big contracts made possible at the price.

PILLOW SHAMS.

It was just because a machine was taught to do "hand work" that we can sell these Cambric Pillow Shams elaborately embroidered for \$1 a pair. It isn't embroidery at all, but a machine trick that looks like it. Other Pillow Shams up to \$2.50 a pair, and any of them marvels of good value.

APRONS.

Aprons are tedious to make and require an amount of material that surprises a novice. We will give you a chance this week to get Aprons ready made cheaper than you could buy the material. India Linen and Gingham, a half dozen different kinds. Large Ginghams, Aprons, 40 inches long, 12½c. White India Linen Aprons, 15c. Others equally pretty, useful and cheap.

CAMP INSPECTION

Secretary Alger and President McKinley Pay a Visit to Camp Wikoff.

SITE REPORTED TO BE AN IDEAL ONE

Everything Possible is Being Done for the Men, Both Sick and Well, Who Are Detained There.

After a Careful Examination the President Left Camp satisfied That the Men Are Well Cared for as They Could Be in a Field Hospital.

WASHINGTON. Aug. 5.—Secretary Alger, who returned late Saturday night from New York after his inspection tour through Camp Wikoff at Montauk Point with President McKinley and several of the bureau officials of the war department, commented Sunday night upon the conditions of the camp and stated the results of his visit. The secretary said:

"I feel certain, after a careful examination of Camp Wikoff and a thorough investigation of its conditions, that everything possible is being done for the men, both sick and well, who are detained there. The camp is an admirable one—the best, I think, I ever saw. The site is ideal. It is beautiful without being picturesque and is certainly as healthful a camp location as could be found in the country."

"While the conditions are as good as could reasonably be expected in the circumstances—even better than I ever knew them to be in a camp—a shade of gloom is cast over the encampment by the physical condition of the men. Sickness, suffering and death may what otherwise would be a magnificent military picture. These conditions, however, are not the result of the situation of the camp itself, but of the terrible campaign through which the troops have just passed. That campaign of Santiago will be memorable in the military history of the world. It was wonderful both in its conduct and in the results accomplished. Few military experts expected that such a success could be achieved in so short a time. It was remarkable in that it was given a campaign in a tropical country during the rain season against a position naturally so strong and so well defended as was Santiago. That success was achieved so soon and with a loss comparatively so small is due to the energy and ability of Gen. Shafter and his commanding officers and the dash, bravery and splendid fighting qualities of the men of Gen. Shafter's corps."

"The president was particularly solicitous about the condition of the men who are ill. He went to Camp Wikoff to ascertain for himself whether the men in the ranks needed anything they were not getting. His orders were that they should want for nothing, but he desired personally to know whether these orders were being carried out. After several hours of patient investigation and careful examination he left the camp satisfied that the men were as well cared for as could be in a field hospital. He took no official's word for anything. He has come to the camp to see for himself and his conviction as to the conditions was reached only after he had come in personal contact with the men. Conditions in the hospitals he went from to ward, almost from cot to cot, stopping every few seconds to talk to the sick men and cheer them with a kind expression or a grasp of the hand. It was an experience not soon to be forgotten. Success of the visit as President McKinley made to Camp Wikoff Saturday is almost unique in the military annals. He left to the camp with knowledge, judgment and experience to make a wise investigation. He had served in the camp and in the field himself and he knew just what ought to be expected in the circumstances. That he was reasonably well satisfied with the conditions as he found them is in itself a guarantee that they are not far wrong."

Gen. Lawton's Health Report.
WASHINGTON. Sept. 5.—Gen. Lawton's report, received Sunday night, of the health conditions of the American troops at Santiago, is as follows:

SANTIAGO, via Hayti, Sept. 4, 1898.
Total sick, 238; total fever, 184; total new cases fever, 20; total returned to duty, 92.

Deaths—George R. Brann, private, Company F, 1st Illinois, typhoid fever; Eugene Munger, private, Company C, 1st cavalry, pernicious malaria fever; C. Lawrence, Commanding.

A sensational rumor.

PARIS, Sept. 5.—The Gaulois this morning publishes a statement to the effect that the minister of war has been officially informed that Estesher proposes shortly to declare himself a member of the Dreyfus letter.

Bryant, Me., Sept. 5.—Holcomb telegraphed to Washington yesterday asking if it was possible to secure an honorable discharge for the members of the 2d Nebraska, Bryant's regiment, on their application.

SIX MEN WERE INSTANTLY KILLED.

A Large Number of Men on the Vessel Were Injured, Some of Whom Will Die.

A Column of Water Hurled 50 Feet Into the Air and Debris Blown Several Hundred Feet—Work to Be Abandoned.

NEW ORLEANS. Sept. 5.—A fort St. Philip special on the Picayune says: "When John R. Meigs, 2d class foreman, blew off there were six men buried by the shock into the Mississippi river who never came to the surface. Three others were thrown into the river but were not so badly injured as to prevent their climbing back upon the boat. Contrary to the advice received Saturday night the Meigs did not stop immediately. Dislodged by the water, he was carried by the tide and a stiff wind to the east bank of his stormy grounds and her bow swung out and pointed down stream. Nearly everything of value had been recovered before she lurched off the bank on which her stern rested and plunged bow foremost into the deep water of the channel. The men hurdle to death by the dynamite never saw the mine that exploded. The ship sank in less than a second, but the survivors are coming their friends, probably fire to one. The veteran's wife, son, daughter, niece, cousin to the farthest remove of relationship are coming."

The hotels are beginning to show forth the friendly faces of the strangers, men of prosperity, brave hearts and true unharmed by wealth in the world's goods. In addition to the old soldiers there are coming their friends, probably fire to one. The veteran's wife, son, daughter, niece, cousin to the farthest remove of relationship are coming.

Cincinnati is ready for the encampment of the thirty-second division of the Grand Army of the Republic, arrived Saturday night and Sunday.

From all parts of the country come survivors of battle fields of the sixties. Men who served at Manassas and at Appomattox are again beginning to rub elbows, to sit check by jowl, to size each other up, to compare notes on their treatment by Father Time to a friendly drink, to swap tobacco and stories, to tell again battle anecdotes.

The hotels are beginning to show forth the friendly faces of the strangers, men of prosperity, brave hearts and true unharmed by wealth in the world's goods. In addition to the old soldiers there are coming their friends, probably fire to one. The veteran's wife, son, daughter, niece, cousin to the farthest remove of relationship are coming.

Cincinnati has taken on a holiday aspect as never before in its history. The queen city has robed herself in gaiety attire. Combinations of the national colors are everywhere visible. Many persons evidently anxious to wait in order to avoid a possible Sunday rain, will leave their buildings bare till early Monday.

The six men killed were: Capt. P. R. Starr, of Viechtburg; Sgt. John Newman, Willett's Point, N. Y.; Private Pat Carlos, from the same place; Fireman J. D. Malone; Ralph Rogers, colored; Harry Jackson, colored.

The wounded were: D. B. Reddicks and Fritz Koch. They are here at the hospital. Pilot J. C. Davis was at the scene of the explosion and the flying fragments of the torpedo and the shattered wreck of the pilot house to pieces. Mr. Davis, however, escaped unhurt. Lieut. Henry Jersey was within a few feet of the pilot house and he too, was fortunate enough to escape unhurt. Night Watchman Frank Cooper, asleep in his cabin on the boiler deck, was awakened by the crash of the explosion and the falling of the steel wall by a piece of the steel deck. He climbed out through the hole.

Lieut. Jersey and Pilot Harris were also on the boiler deck. D. B. Reddicks was blown into the river.

A piece of the right forearm and another tore off a piece of his steel. Engineer Layne was blown into the river and escaped unhurt. The gas tank exploded in the boat when the explosion occurred. The explosion occurred about eleven o'clock. It was noon when the Meigs sank. Her entire forecastle was blown off and nothing but her water tight compartments prevented her immediate sinking.

A column of water was hurled 50 feet high into the air and debris and smoke were seen half a hundred feet away.
